MANDELIC PEEL

 DERMAQUEST

## WHY CHOOSE SK:N

- Each one of sk:n's clinics has a Medical Director to ensure every single treatment and product complies with our consultant approved medical protocols, giving the highest standards of quality and safety
- sk:n works with more Consultant Dermatologists than any other chain of clinics, to offer free rejuvenation assessments and carry out bespoke treatment plans
- Our clinicians have in-depth and frequent training, contributing to our industry low incident rates
- sk:n offer a greater breadth of treatments than any other chain of skin clinics, from clinically proven products, to mid-priced, low 'downtime' treatments to minimally invasive, high-efficacy solutions
- sk:n has a network of clinics across the whole country, all operating to the same highest standards of care, with some clinics open 7 days a week, often to 9pm

## ONLY THE VERY BEST

We have the highest standards of safety and protocol, which is why we have chosen to offer you the Mandelic Peel treatment. DermaQuest products and formulations incorporate the highest industry standards, with quality control as the highest priority.

## HOW IT WORKS

This gently brightening peel has been specifically engineered to treat undesired hyperpigmentation from the skin resulting in a healthier and brighter complexion. Suitable for all skin types, this exfoliating treatment lifts dark spots and brightens dull skin.

A unique pairing of Hibiscus Alpha Hydroxy Acids with Mandelic and Azelaic Acid works synergistically to deeply exfoliate and liberate undesired hyperpigmentation from the skin. Amino acids provide the building blocks to support the skin's restructuring process, resulting in a healthier and brighter complexion. This treatment is the perfect introduction to a SkinBrite Peel series.

## BENEFITS:

- Brightens undesired, persistent pigmentation
- Strengthens compromised skin
- Induces cellular turnover for a healthy glow
- Deeply exfoliates while infusing nutrition

## SKIN PREPARATION:

In order to support, enhance and protect your skin prior to and during your DermaQuest treatments, it is important to follow the instructions provided by your skincare professional, as this routine is designed to bring your skin to its fullest potential.

We recommend the following products to get the best results from this treatment:

- Peptide Glyco Cleanser
- Essential B5 Hydrating Serum
- Stem Cell Rebuilding Complex
- SheerZinc SPF30

## YOUR QUESTIONS ANSWERED!

### WILL IT HURT?

When the peel is applied to your skin, it will gradually become warm all over, with each layer becoming progressively warmer. A mild tingling sensation may occur. By the time the treatment is finished, your skin will feel comfortable all over.

### IS THERE ANY DOWNTIME?

Your skin will flush with an slight redness all over - this will subside within a few hours. Your skin may feel dry and tight due to epidermal water loss, which could create a skin flaking, which could last between 3-6 days.

### HOW MANY TREATMENTS WILL I NEED?

We recommend a course of 3 treatments, with 1 treatment every 4 weeks.

### AFTERCARE

Our post treatment care is designed specifically to restore, enhance and protect your skin. Our regime optimises and maintains results, ensuring healthy skin at its fullest potential post-treatment. DermaQuest's professional peels may

cause increased sensitivity to the skin. Please follow the advice provided from your skincare professional for the next 3-5 days post-treatment:

- Keep the skin hydrated and protected with an SPF30
- Avoid sweating, exercising, hot baths or showers, scrubbing, picking or rubbing, which could lead to scarring
- Avoid sun exposure
- Avoid the use of active skincare containing AHA, BHA, Retinol, Benzoyl Peroxide

### RECOMMENDED HOMECARE

- B3 Youth Serum
- Delicate Cleansing Cream
- Delicate Soothing Serum
- Essential B5 Hydrating Serum
- EyeBrite
- Retinol Brightening Serum (Nighttime only. Avoid the eyes and neck)
- SkinBrite Cream
- SkinBrite Serum
- Stem Cell Rebuilding Complex
- SunArmor SPF50
