## THE FACTS

### THE BIG QUESTIONS!

1. Do you want to control breakouts?
2. Is your skin red due to persistent acne?
3. Do you want to banish your blemishes?

If the answers are

**YES...**

then the Salicylic Resurfacer is  
your key to clearer skin.

TREATMENTS YOU CAN TRUST

**SALICYLIC ACID RESURFACER**

 **DERMAQUEST**

## SALICYLIC ACID

### WHY CHOOSE SK:N

- Each one of sk:n's clinics has a Medical Director to ensure every single treatment and product complies with our consultant approved medical protocols, giving the highest standards of quality and safety
- sk:n works with more Consultant Dermatologists than any other chain of clinics, to offer free rejuvenation assessments and carry out bespoke treatment plans
- Our clinicians have in-depth and frequent training, contributing to our industry low incident rates
- sk:n offer a greater breadth of treatments than any other chain of skin clinics, from clinically proven products, to mid-priced, low 'downtime' treatments to minimally invasive, high-efficacy solutions
- sk:n has a network of clinics across the whole country, all operating to the same highest standards of care, with some clinics open 7 days a week, often until 9pm

### ONLY THE VERY BEST

We have the highest standards of safety and protocol, which is why we have chosen to offer you the Salicylic Resurfacer treatment. DermaQuest products and formulations incorporate the highest industry standards, with quality control as the highest priority.

## RESURFACER

### HOW IT WORKS

Take your anti-acne ambitions to the next level and help deep cleanse and unblock pores, whilst stopping acne-causing oil in its tracks. Salicylic Acid effectively exfoliates the skin by controlling congestion and relieving inflammation.

This resurfacer uses 20% Salicylic Acid to reduce redness and inflammation associated with acne as it prevents future breakouts. By targeting blemish-causing bacteria, it effectively releases hardened sebum while quashing oil.

### BENEFITS:

- Dissolves oil and buildup
- Addresses acne breakouts directly
- Reduces inflammation and soothes irritation
- Softens impactions associated with acne

### SKIN PREPARATION:

In order to support, enhance and protect your skin prior to and during your DermaQuest treatments, it is important to follow the instructions provided by your skincare professional, as this routine is designed to bring your skin to it's fullest potential.

## SALICYLIC ACID

We recommend the following products to get the best results from this treatment:

- Peptide Glyco Cleanser
- Essential B5 Hydrating Serum
- Stem Cell Rebuilding Complex
- SheerZinc SPF30

### YOUR QUESTIONS ANSWERED!

#### WILL IT HURT?

When the treatment is applied to your skin, you will feel warmth with a slight spiky sensation. Your skin will go pink and a light powdered frosting will form. This is a normal response as the Salicylic Acid dries.

#### IS THERE ANY DOWNTIME?

The skin will be flushed with a slight redness which could last a couple of hours. Your skin will become slightly dry and tight over the first couple of days, creating a light flake which could last up to 3-4 days, before returning to normal.

#### HOW MANY TREATMENTS WILL I NEED?

We recommend a course of 6 treatments, with 1 treatment every 2 weeks.

#### AFTERCARE

Our post treatment care is designed specifically to restore, enhance and protect your skin. Our regime optimises and maintains results, ensuring healthy skin at its fullest potential post-treatment.

## RESURFACER

DermaQuest's professional resurfacers may cause increased sensitivity to the skin. Please follow the advice provided from your skincare professional for the next 3-5 days post-treatment:

- Keep the skin hydrated and protected with an SPF30
- Avoid sweating, exercising, hot baths or showers, scrubbing, picking or rubbing, which could lead to scarring
- Avoid sun exposure
- Avoid the use of active skincare containing AHA, BHA, Retinol, Benzoyl Peroxide

#### RECOMMENDED HOMECARE:

- B3 Youth Serum
- B5 Moisture Matte
- Delicate Cleansing Cream
- Delicate Soothing Serum
- SheerZinc SPF30
- Benzoyl Peroxide

#### THE STAMP OF APPROVAL

sk:n are a founding member of Treatments You Can Trust (TYCT), a government and industry backed independent, self-regulatory scheme for the cosmetic treatments industry, TYCT are there to help you make an informed, safe choice when choosing your treatment.
