THE FACTS

THE BIG QUESTIONS!

1. Is your skin in need of substantial exfoliation?
2. Do you want to combat photo damage, deep wrinkles and sagging skin?
3. Do you want softer and smoother skin?

If the answers are

YES...

then the TCA/Salicylic Acid
Peel could be for you...

TCA/SALICYLIC ACID PEEL

 DERMAQUEST

WHY CHOOSE SK:N

- Each one of sk:n's clinics has a Medical Director to ensure every single treatment and product complies with our consultant approved medical protocols, giving the highest standards of quality and safety
- sk:n works with more Consultant Dermatologists than any other chain of clinics, to offer free rejuvenation assessments and carry out bespoke treatment plans
- Our clinicians have in-depth and frequent training, contributing to our industry low incident rates
- sk:n offer a greater breadth of treatments than any other chain of skin clinics, from clinically proven products, to mid-priced, low 'downtime' treatments to minimally invasive, high-efficacy solutions
- sk:n has a network of clinics across the whole country, all operating to the same highest standards of care, with some clinics open 7 days a week, often until 9pm

ONLY THE VERY BEST

We have the highest standards of safety and protocol, which is why we have chosen to offer you the TCA/Salicylic Peel treatment. DermaQuest products and formulations incorporate the highest industry standards, with quality control as the highest priority.

HOW IT WORKS

Bold and impressive, this chemical peel is designed to transform rough textured skin while smoothing lines and wrinkles. Not for the faint hearted, most will experience light sloughing to deep sheets of peeling that precedes the new, smooth even-toned and revitalised skin.

As the TCA/Salicylic Acid peel penetrates into the skin, it stimulates cell renewal and collagen production. This treatment uses 2% Salicylic Acid and 7% Trichloroacetic Acid to penetrate the deepest epidermal layers. After 7-10 days, the skin will appear much smoother and softer, and will gradually plump to reduce lines over the next 6 weeks.

BENEFITS

- Rapid and aggressive exfoliation of superficial layers
- Evens skin tone and improves fine lines
- Instantly promotes a smoother and softer texture

SKIN PREPARATION

In order to support, enhance and protect your skin prior to and during your DermaQuest treatments, it is important to follow the instructions provided by your skincare professional, as this routine is designed to bring your skin to it's fullest potential.

We recommend the following products to get the best results from this treatment:

- Peptide Glyco Cleanser
- Essential B5 Hydrating Serum
- Stem Cell Rebuilding Complex
- SheerZinc SPF30

YOUR QUESTIONS ANSWERED!

WILL IT HURT?

When the treatment is applied to your skin, it will gradually become hot all over. This will reduce after approximately 1 minute. Your skin may become hotter with the application of each layer. By the time the treatment is finished, your skin will feel comfortable all over.

IS THERE ANY DOWNTIME?

Your skin will be flushed with a slight redness which could last a couple of hours. Immediately after, your skin will feel dry and tight, which will increase for the next 2 days. Your skin will start to peel after 2-3 days - this will begin on the lower face and move upwards. After 7-10 days, your skin will be back to normal.

HOW MANY TREATMENTS WILL I NEED?

We recommend a course of 3 treatments, with 1 treatment every 4 weeks.

AFTERCARE

Our post treatment care is designed specifically to restore, enhance and

protect your skin. Our regime optimises and maintains results, ensuring healthy skin at its fullest potential post-treatment. DermaQuest's professional peels may cause increased sensitivity to the skin. Please follow the advice provided from your skincare professional for the next 3-5 days post-treatment:

- Keep the skin hydrated and protected with an SPF30
- Avoid sweating, exercising, hot baths or showers, scrubbing, picking or rubbing, which could lead to scarring
- Avoid sun exposure
- Avoid the use of active skincare containing AHA, BHA, Retinol, Benzoyl Peroxide.

RECOMMENDED HOMECARE

- B3 Youth Serum
- Stem Cell 3D Complex
- Stem Cell 3D Eye Lift
- Stem Cell 3D Facial Cleanser
- Stem Cell 3D Hydrafirm
- Stem Cell 3D Lip Enhancer
- Stem Cell 3D Tinted Moisturizer SPF30

THE STAMP OF APPROVAL

sk:n are a founding member of Treatments You Can Trust (TYCT), a government and industry backed independent, self-regulatory scheme for the cosmetic treatments industry, TYCT are there to help you make an informed, safe choice when choosing your treatment.

BEFORE

AFTER

✔ TRUSTPILOT

“ Professional and expert service. I know that I am in safe hands. I have received the best care and service, I am very pleased with the treatment I have already recommended it to friends. ”
